1.Select All CityID, CityName, Pincode, CityRemarks, StateID, StateName

```
create Procedure pr_mst_city_select_all
as
begin
select cityid,cityname,pincode,cityremarks,mst_city.stateid,statename from mst_city
inner join mst_state
on mst_city.stateid = mst_state.stateid
end
```

2.Insert

```
create Procedure pr_mst_city_insert
@cityid             int,
@cityname           varchar(250),
@pincode            varchar(6),
@stateid            int,
@cityremarks        varchar(500)
as
begin
insert into mst_city
(cityid,cityname,pincode,stateid,cityremarks)
values
(@cityid,@cityname,@pincode,@stateid,@cityremarks)
 end
```

3.Update

```sql
create Procedure pr_mst_city_update
@cityid                     int,
@cityname           varchar(250),
@pincode            varchar(6),
@stateid            int,
@cityremarks   varchar(500)
as
begin
update mst_city
set cityname =  @cityname,
      pincode = @pincode,
      stateid = @stateid,
      cityremarks = @cityremarks
where cityid = @cityid
end
```

4.Delete

```sql
create Procedure pr_mst_city_delete
@cityid int
as
begin
delete from mst_city
where cityid = @cityid
end
```

5. SelectByPK

```sql
create Procedure pr_mst_city_selcetPK
@cityid int
as
begin
select * from mst_city
where cityid = @cityid
end
```

6. SelectByPincodeStartWith360

```sql
create Procedure pr_mst_city_pincode360
as
begin
select * from mst_city
where pincode like '360%'
end
```

7. SelectByCityNamePincode

```sql
create Procedure pr_mst_city_citynamepincode
@cityname varchar(250),
@pincode varchar(6)
as
```

```
begin
select * from mst_city
where citynam = @cityname
and
pincode = @pincode
end
```

8. SelectByCityRemarks

```
create Procedure pr_mst_city_selcetbycityremarks
@cityremarks varchar(500)
as
begin
select * from mst_city
where cityremarks = @cityremarks
end
```

9. SelectByStateID

```
create Procedure pr_mst_city_selcetstateid

@stateid int
as
begin
select * from mst_city
where sateid = @stateid
end
```

10. SelectByStateIDCityID

```
create Procedure pr_mst_city_selcetstateidcityid
@cityid int,

@stateid int
as
begin
select * from mst_city
where cityid = @cityid
and
stateid = @stateid
end
```
